There will be a 4% processing fee added for orders paid by credit card.

PRICING:

Is subject to change without notice, according to market fluctuation.

DropStop® the original® NON-DRIP WINE POURER

DropStop® is an award winning European designed wine pourer. Used by wine professionals worldwide. When using a DropStop® you'll never spill a drop of wine again. This unique item is useful, lasts for years and creates great conversation. Many packaging options are available to create the ultimate presentation and messaging for your next promotion. Full color printing is standard. To use simply roll up the 3" disk, insert in bottle, pour and enjoy.

DropStops® are sold bulk with convenient packaging options to suit your promotion. Simply determine the quantity of bulk DropStops® and add in the cost of the packaging you prefer.

OAK BARRELS AND DÉCOR

Handcrafted items are made in the USA from American White Oak, Ash and Pine woods. Barrels have a medium char and are perfect for any spirit that benefits from aging and or use the barrel as a unique cocktail dispenser. Barrels are handmade without glue, nails or paraffin wax. All items can be customized with logos and/or names. All barrels and décor ship out of VA.

POP UP DISPLAYS

These elegant and affordable floor stands, demo stands, product displays and outstanding custom shaped in-store signs will stop customers in their tracks. Sizes range from about 19.7" wide to 74.8" tall. Easy to install and compact to ship. The patented technology takes the stands from flat to fully deployed in seconds.

PRODUCT DETAILS:

- All barrel items are hand crafted and rustic. Each piece ordered will have unique characteristics that are not considered imperfections and add to the charm and rustic appeal. Wood blemishes, knots, and variances in natural wood properties are to be expected. All items are sold "as is" regarding rustic charm as described.
- Handmade in the USA. American White Oak, Ash and Pine woods used for individual pieces to create stunning gift items, awards, and incentives for your next promotion or program. Engraving is included on all barrel items.
- Barrels are perfect for any spirit that benefits from aging. No glue, nails or paraffin wax used in production.

CALL OR EMAIL FOR 3 LITER PRICING

OAK BARREL 101 (for BRL120, BRL130 and BRL150):

Curing Your Barrel: First rinse the inside of the barrel by filling and emptying 2 or 3 times to remove any wood debris. Prior to use, your barrel must be filled with water for approximately 3 to 5 days. Barrel may leak until cured. After this initial curing period, place the barrel on the holder in a dry area. Liquid will continue to slowly drain through the wood for the following 3 to 7 days. Keep the barrel filled during this time. When the barrel stops draining, empty the contents and rinse again. You are now ready to fill with your spirits.

Filling with Spirits: When filling your barrel with spirits, fill the barrel completely removing all air. Place the cork in tightly. Air inside the barrel can spoil the aging process.

Barrel Storing Tablets: Use per-measured doses of sulfites formulated to kill bacteria & inhibit the growth of yeast & microbes in the barrel. Pour mixture in the barrel and fill completely with additional water. Store in cool damp conditions if possible. Rinse 3x prior to use.

Directions: To store or clean your barrel between uses, dissolve tablets in a glass of water. Pour into barrel and top off with water.
